Career Objective

As a passionate and curious learner, I aspire to build a meaningful career in the field of Data Science where I can continuously grow, solve real-world problems, and contribute to impactful projects. My aim is to combine my technical skills with practical knowledge to deliver data-driven solutions that matter. I believe in consistent learning and adapting to new AI technologies to stay ahead in this fast-evolving domain.

Education

B.Tech in Computer Science & Engineering

Anand International College Of Engineering, Jaipur
2022 – 2026

Senior Secondary (Class 12th – RBSE)

JMS School, Jaipur – 73%
2022

Secondary (Class 10th – RBSE)

SVM School, Jaipur – 83%
2020

Technical Skills

- **Languages & Tools:** Python, Java, MySQL, Git, VS Code
 - **Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Flask, Streamlit
-

Projects

Spam Message Classifier

Python, Scikit-learn, Flask

- Developed a web application to classify messages as spam or ham using the Naive Bayes algorithm.

Email Sender using Python

- Scripted an automated email sender program using Python's smtplib and email libraries.

Crop Prediction System

Python, Scikit-learn, Flask

➤ Implemented a crop recommendation model using K-Means Clustering based on environmental conditions.

Bike Price Prediction

Python, Scikit-learn, Flask

➤ Built a linear regression model to predict bike resale prices based on given features.

Titanic Dataset EDA

Python, Pandas, NumPy, Matplotlib, Jupyter

➤ Performed exploratory data analysis to uncover survival patterns from the Titanic dataset.

Internships & Training

Data Analyst Intern – Learn And Build

Duration: 45 Days

Data Science with AI & ML – Upflair Pvt. Ltd.

Ongoing

Certifications

- C Training – Anand International College Of Engineering
 - Data Analyst – Learn And Build
-

Languages Known

Hindi, English

Hobbies & Interests

- Exploring new AI tools and technologies
